REMOVALS GROUP

100
YEARS OF SERVICE

DOMESTIC MOVING

ACROSS THE STREET,
ACROSS THE WORLD,
THE BEST MOVES
ARE MADE WITH GRACE.

THE SERVICE DIFFERENCE

- flexible and we aim to please
- market leader
- global expertise
- international reputation
- you can trust us
- in business since 1911
- we deliver on our promise
- excellent references
- quality assured
- it's the little things that count

WHY MOVE WITH GRACE?

IT'S A TRUST THING ...

Since 1911, Grace has been leading the way in household removals. Today, our reach spans across the globe and we are proud to be internationally recognised as a worldwide leader and specialist in household removals.

HOW WE OPERATE ...

At Grace, we owe our success to several key principles that underpin everything we do; be highly professional at all times, always maintain a service oriented approach and finally, be easy to deal with. These principles allow us to deliver a consistent, high quality customer experience every time.

MAKING IT EASY ...

With over 100 years experience, our team at Grace know to expect the unexpected. We also know that no two clients are the same and therefore our commitment to flexibility and offering customised service solutions is paramount.

We move seven days a week and offer easily accessible and managed security storage solutions, specialised packing cartons for those unusual items, containerised shipments, plus a full range of ancillary services to ease your load.

SPECIALIST CARE ...

Grace Removals has a range of specialist services available for those specific items that require a different level of care.

For example, we can thoroughly clean your home and gardens after you vacate. We have professional pet transfer specialists who can arrange boarding or transportation for your beloved family pets. We even offer customised valet services that can unpack your boxes, set up your furniture, make the beds and do whatever you need so you can simply move in and relax.

IT'S THE LITTLE THINGS ...

Moving with Grace gives you peace of mind. We're a one-stop shop that has a proven track record of reliability and delivering on our promise. We'll offer you a fixed price quotation and the best insurance at competitive rates. We deliver door-to-door and we'll manage your move from start to finish. Our reputation is solid and we have excellent references to prove it.

With Grace Removals, we know it's the little things that count, and that's why the best moves are always made with Grace.

OUR HISTORY

In 1884, in Sydney's George Street, a small retail store known as Grace Bros opened its doors for the first time.

From day one, brothers Joseph and Albert Grace grew their retail empire by delivering consistent value for money and quality service.

Nearly 30 years later, in 1911, Grace Bros purchased a small business in Sydney complete with one repository and two horse-drawn vehicles and Grace Bros Removals was born.

Today, Grace Removals provides a comprehensive range of removals services to individuals worldwide. Grace Removals is a one-stop shop that can manage any move regardless of size or destination. We understand all the complexities of moving and we have the professional experience and support services to help guide you through.

QUALITY ASSURANCE

Combining more than 100 years of experience, modern facilities, integrated systems and quality materials, Grace Removals prides itself on its ability to remove the complexity associated with relocations and provide clients with peace of mind, at a value for money price.

At Grace, we take our ongoing commitment to excellence seriously and actively maintain our ISO 9001/2008 certification and various FAIM Plus accreditations - the highest quality certification awarded within the international moving industry. While there are literally tens of thousands of moving companies worldwide, less than 600 of us have achieved this level of 'world's best' standard of excellence.

MOVING WITHIN AUSTRALIA AND NEW ZEALAND

Grace has developed a range of services based on over a century of experience. Our packing materials are of the highest quality and the vehicles and equipment we use have been specifically designed for moving household goods and effects.

Our ongoing commitment to excellence is reflected in the quality of work performed by our staff and our experience has taught us to expect the unexpected. With meticulous planning, we can minimise potential problems and ensure that our focus is always on the delivery of a quality service.

Grace Removals Group is a member of and an active participant in the following moving associations:

Australian International Movers Association

Federation Internationale des Demenageurs Internationaux

International Convention of Exhibition and Fine Art Transporters

Founding Member, Australian Furniture Removers Association

Australian Human Resources Institute

The Employee Mobility Institute

MOVING TIPS

- Keep important personal papers with you – such as passports, birth certificates, drivers licence and vehicle ownership papers.
- Children, like adults, find moving stressful. Remember to make arrangements that cater for their wellbeing on moving day.
- Pets also suffer stress when moving house so it's important to consider their needs.

YOUR MOVE

LOCAL RELOCATIONS

Grace Removals offers a range of popular service options for local relocations, which includes:

- A correctly specified moving van and two moving professionals. This is a cost effective option for moving the average family home. Charges are calculated by the hour on a depot-to-depot basis.
- For larger relocations we can supply a correctly specified moving van and three or four moving professionals, depending on your requirements. We can also add additional vehicles if required. Again, charges are calculated by the hour on a depot-to-depot basis.
- One of the most requested options is a fixed price quotation covering all of the agreed services. This gives you the comfort of knowing the total cost in advance and still provides you the option to select additional services if required.

LONG DISTANCE MOVES

Grace is proud to oversee the most extensive branch network of any moving organisation in Australasia, one that spans the length and breadth of Australia and New Zealand.

Put simply, your effects remain in our experienced hands from start to finish and you'll enjoy the benefits that go along with having the one trusted company being solely responsible for your move.

We provide a complete door-to-door service that includes packing, loading, transit, delivery and unpacking. We can also offer storage and insurance services on long distance moves and will provide you with a written fixed-price quotation that is based on value for money and is supported by our commitment to quality service delivery.

LOCAL AND LONG DISTANCE MOVES WITH GRACE

- door-to-door
- flexible moving and storage solutions
- quality assured service
- fixed price quote
- largest company owned branch network
- move any day of the week
- reliability you can trust
- proven reputation
- superior packing materials
- extensive back up resources

MOVE PREPARATION

PACKING

To minimise disruption to your daily routine, our professional moving staff can pack your household items for you, within an agreed time frame.

The use of high quality packing materials means that your goods are safely prepared for the move.

- Grace Removals packs all of your household goods and effects in your home.
- All materials used are designed specifically to protect your valuable assets in transit.
- Fragile items such as china and glassware are wrapped in specialised paper and then packed in double-thickness cartons.
- Items requiring specialist care, such as antiques, can be packed in made-to-measure wooden crates.
- Each household item to be moved is labelled individually and an inventory list prepared.

Correctly packing your household items is key to a successful relocation. Our staff are fully trained moving professionals and can pack everything in your home for you. This can be a huge time saver for your family as well as give you peace of mind knowing everything will arrive at your destination just as it was when packed.

FURNITURE PROTECTION

Grace Removals uses removal grade quilted blankets to wrap and protect all your heavy furniture during your move.

Soft furnishings such as lounge settees and arm chairs are placed in plastic protector bags which safeguard against marking during your move.

High value antiques and works of art which require specialist care can be packed into made-to-measure wooden crates.

Grace Removals is committed to a sustainable environment, and as a consequence the majority of our materials are recycled.

PACKING WITH GRACE

- purpose designed packing cartons
- professionally trained packers
- save time and energy
- peace of mind

MOVING TIPS

- Don't polish wooden furniture before moving day as it can cause condensation when the item is wrapped for transit.
- Defrost the refrigerator 24 hours before uplift to allow the interior time to dry. Towel dry and wipe the interior with vanilla essence.

MOVING TIPS

- Take some time to think carefully prior to delivery day about the size and layout of your new residence and where you will place your furniture and effects. If space is an issue, we can offer storage solutions to suit your requirements.

MOVING PROCESS

INVENTORY MANAGEMENT

To ensure the safe transit of your effects, we will prepare a detailed inventory of your household goods, numbering and describing each item. This document is then checked, cross-checked and tracked at regular intervals from the moment your shipment is collected to its safe delivery at its intended destination.

TRANSIT

Grace removals owns and operates one of the largest, dedicated fleets of correctly specified vehicles and furniture containers in Australasia, and offers complete coverage across Australia and New Zealand. All client moves are managed through our centralised logistics management centre. This means a more cost-effective, efficient and timely service, regardless of shipment size or destination.

Grace will work with you to develop a moving schedule that meets your needs and also help you reduce costs where possible.

DELIVERY

All removals companies deliver, but at Grace Removals, we go that step further. Part of our relocation service includes unloading and unwrapping all your furniture, placing fragile items to benchtop, positioning furniture where you want it, and then removing all the packaging debris. We're all about helping to make it easy for you to settle into your new home.

“Grace Removals will work with you to develop a moving schedule that meets YOUR needs.”

SECURITY AND PROTECTION

INSURANCE

At Grace Removals we are justifiably proud of the service we provide, which is kept to an exacting standard through meticulous planning, accurate resourcing and actively managing the relocation process.

We enjoy one of the lowest claims incident ratios in the industry because of our commitment to security and protection. Our focus is always on the provision of a high quality service and the minimisation of damage during the relocation process.

However, while your goods are in transit and/or storage, it pays to be aware of the fact that your goods may be exposed to a number of risks which may be outside our control. Just as you need to protect your valuable personal possessions and property inside your home, we recommend that you consider protecting the same valuable personal possessions and property while they are in our care.

We can arrange comprehensive transit and storage insurance on your behalf. Our Product Disclosure Statement (PDS) and Financial Services Guide (FSG) can be found in our insurance proposal and these will give you more detail about the insurance covers we offer.

STORAGE

Grace Removals offers a safe, clean and secure storage option for your effects while in transit or long-term storage.

When in our care your effects will be stored in purpose-built modules designed to enhance the security and safety of each item.

We are able to store carpets and rugs in specially designed storage areas that keep the item in the best possible condition. Our dedicated storage facilities allow easy access to your goods subject to reasonable notification. This allows you to add or remove items at your convenience.

STORAGE WITH GRACE

- peace of mind, safety and security
- easy, accessible storage
- clean, sealed and pest proof storage environment
- excellent facilities
- strict inventory control

INSURANCE WITH GRACE

- risk management
- protection
- competitive rates
- single point of contact
- quick resolution

MOVING TIP

- Carefully consider the need to insure compared to the risk. Whomever you insure with, the cost of cover is invariably far less than the potential risk. We can offer a comprehensive range of insurance options – please talk to one of our Consultants.

MOVING TIPS

- Keep your pet's veterinarian records handy just in case.
- Airlines charge for overweight baggage so consider our essential items delivery option that might address and ease potential complications associated with personal travel.

PET TRANSFER WITH GRACE

- we understand that pets are important
- door to door transportation
- peace of mind knowing your pets are safe

HOME CLEANING WITH GRACE

- a range of home cleaning services
- save time
- tailored to individual needs
- optional additional services

SPECIALIST SERVICES

At Grace Removals, years of experience have taught us that relocations involve so much more than just furniture removal. That's why we offer a range of specialist services to help save you time, effort and give you peace of mind throughout the entire process. Some of these services include:

PET TRANSFER

For as long as Grace has been in business we have been helping families move their pets and we understand how relocations can put stress on our animal friends.

Our Pet Transfer partners are specialist professionals when it comes to animal handling and must pass our rigorous checks before deployment. Whether you require boarding services or door-to-door transportation for your pets, your pet's safety and comfort is our top priority and TLC is guaranteed.

HOME CLEANING SERVICES

We understand that moving house can be a messy business. Grace can arrange a basic cleaning service after completion of packing and loading or prior to delivery and unpacking. Of course, should more than a basic clean be required, we can also tailor a more comprehensive home cleaning service to suit your specific needs.

Optional extras include oven cleaning, blind, drape or curtain cleaning and window cleaning. We can even arrange external home-cleaning services if required.

ESSENTIAL ITEMS DELIVERY

Often our clients seek some form of temporary accommodation while they become accustomed to their new location, eg. hotel, motel or apartment.

In order to meet client demand we have designed a support service that can arrange the delivery of essential items directly to your temporary residence while your main shipment remains in storage awaiting relocation to your permanent residence.

Clients with young children and home offices find this service particularly useful as it reduces the need to take goods with them as personal luggage.

GRACE FINE ART

Grace Removals have been in the fine art business for many years and offer a dedicated service for private, public and commercial collections. Grace Fine Art are specially trained to manage the packaging and transportation of high-value pieces of art, treasured family heirlooms and mementos.

There are many facets to our Fine Art services including the option of climate controlled transport and storage, asset management, installation, insurance and customs brokerage. With Grace Fine Art, your valuables are protected.

VEHICLE TRANSPORTATION

Our specialist transport service partners provide tailored vehicle transport solutions for our clients. They can arrange the door-to-door transfer and storage of motor vehicles, motorcycles, boats and trailers.

HOME GARDENING AND RUBBISH REMOVAL

Grace Removals can save you time and energy by taking care of your gardening needs prior to your departure or before you arrive. We can mow lawns, remove garden and/or domestic rubbish and tidy up the yard and garden.

GRACE VALET

At the end of a busy and tiring moving day, we know that unpacking can sometimes be a challenge, especially under certain family, work or lifestyle situations. So why not let Grace Valet take care of that for you!

Our Grace Valet ladies take over where our removalists leave off and can completely unpack your newly relocated belongings for you. They can organise your kitchen, safely put away your breakables, neatly hang your clothes in wardrobes, make the beds, arrange books onto shelves, set up your living room, whatever you need. You choose what they do and for how long, then just simply move in and enjoy your new home.

VALET WITH GRACE

- save time
- re-establish the home quickly and efficiently
- ease the load on you and your family
- partial unpack service also available

MOBILITY SERVICES

Our aim is to provide you with a range of unique relocation services designed to minimise disruption and to make efficient use of the time you have available during the moving process.

Moving to a new city can be challenging, particularly if time is short and decisions have to be made quickly. Grace Mobility understands this and therefore offers a range of mobility services to help you find the resources you need to keep things running smoothly.

- Orientation tours
- Finding a new home
- Educational assistance
- Temporary accommodation
- Flight booking assistance

“ With Grace Removals, you can rest assured that our expert teams will work efficiently to get you organised and settled from the very beginning into your new home. ”
