# LIGHTING OVERVIEW

YOUR LIGHTING IS OUR BUSINESS

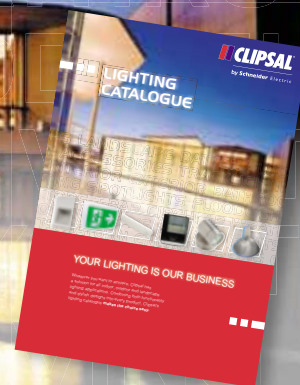

[clipsal.com](https://clipsal.com)

L I G H T I N G

Clipsal now offer an extensive lighting range with a solution to suit every application. Whether you require lighting for residential, commercial or industrial applications, Clipsal has a reliable, energy efficient lighting solution to suit your needs.

Clipsal's comprehensive new lighting range includes fluorescent lighting, floodlights, high and low bays, downlights, LED lighting, exit and emergency lights. So no matter what your lighting requirements, Clipsal has you covered.

## FLUORESCENT BATTENS

The entire Clipsal fluorescent lighting range is available with T8, T5, PL or CFL lamps and can be provided with various dimming solutions to suit your requirements. Should you require analogue, digital, DSI or DALI lighting control contact your nearest Clipsal Representative.

### Features

- Steel body with white powder coating.
- Polycarbonate end caps and lamp holders.
- Colour 840 lamps included.
- Diffused models with pattern 12 formed acrylic.
- Range of reflectors and wire guards to suit.
- End to end mounting with preformed cable entry punch outs.
- Large terminal blocks for looping applications.
- Supplied with B2 energy saving ballasts or high frequency non-dimming ballasts.

## FLOODLIGHTS

Clipsal's floodlight range is available in two lamp technologies, tungsten and metal halide; ensuring there's a floodlight to suit your required application.

### Features

- Die cast body painted black.
- Aluminium reflector specula.
- Toughened front glass.
- Integral control gear.
- Choice of IP54 and IP65 rating.
- Lamps included.

METAL HALIDE FLOODLIGHTS  
FL400

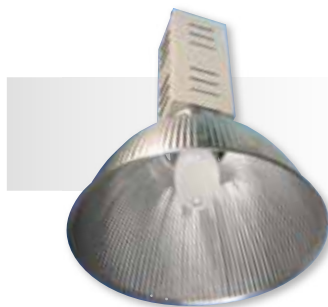

## HIGH/LOW BAYS

Clipsal's high and low bay light range are the best option for most commercial applications, providing quality light and superior energy efficiency, making them ideal for operating over long periods of time.

### Features

- Reflector ribbed aluminium.
- Integral metal halide control gear.
- Easy access and ventilated gear housing.
- Flex and plug supplied and fitted.
- E40 porcelain lamp holder.

METAL HALIDE HIGHBAY

## EXIT/EMERGENCY LIGHTING

Clipsal's exit and emergency lighting range is ideal for safely guiding people out of buildings, office spaces or department stores. These fixtures use advanced lamp technology that utilise LEDs, providing unsurpassed energy conservation, with extended lamp life.

### Features

- Slim edge light designs with flush mounting.
- Supplied with fitted flex and plug.
- Osram LED long life lamps – only 2.2 Watts.
- Electronic continuous current charging system – 3.6V 60mA.
- Viewing distance 24m.
- High temperature nickel metal hydride batteries.
- Complies with AS/NZS2293.

## DOWNLIGHTS

Clipsal's extensive downlight range comes in many varieties, which allows the user to satisfy their style, budget and requirements. Clipsal Downlights utilise the latest IRC technology. They are available with dichroic lamps, green CFL's or metal halide lamps, providing options to suit any job you have.

### Features

- Easy to fit ceiling clips.
- Multi-point contact lamp holder for good heat dissipation and longer lamp life.
- 40cm lead sets for easy installation.
- Large terminals for easy wiring (2 x 2.5mm).
- Compatible with Clipsal lighting control products, including C-Bus and Clipsal C-Thru dimmers.

## LED LIGHTING

Clipsal's light emitting diodes (LEDs) have the ability to produce "pure colours", that are not possible to achieve with other light sources. LEDs are an energy efficient lighting option because they have low power consumption. LED lighting has no filaments, so they seldom require replacing, are very compact in size, while offering high resistance to vibration and shock.

### Features

- Low level lighting features.
- Mains voltage with integral LED 240V driver.
- Low running costs.
- Long lamp life.
- Blue or white LEDs available.

## EXTERIOR LIGHTING

Clipsal exterior lights are available in two ranges, exterior bulkheads and decorative lighting; so there is sure to be a style to suit your needs and requirements.

### Features

- Die-cast aluminium construction or machine grade stainless steel.
- Frosted glass lens.
- CFL options available.
- Weatherproof ratings.
