Apollo Patios® has achieved a breakthrough in building design excellence by providing a patio system that offers a combination of high quality, outstanding design possibilities, functional simplicity and value for money you never thought possible.

You can choose from the flat profile skillion patio where spans of up to 4.7 metres are possible, or for an addition designed to become a feature of your home, the elegant gable or contemporary curved patio are a stylish yet functional option.

The Apollo Gable ridge beam system means no more unsightly roof screws under the patio roof system and our pre-angled beam sections ensure that our patios are given a stronger and neater fixing system with no visible fasteners. By utilising Apollo's unique beam sizes, greater spanning options are available using fewer posts and the use of colour bond flashing and matching guttering is designed to compliment your homes existing features.

Extend your living area with steel framed decks, timber framed decks, or natural and composite floors from Apollo Patios®. You can choose from a variety of styles designed to fit perfectly with the existing features of your home.

There are a variety of balustrade styles available to suit your design. To make the entire process easy, council permits can be organised with your local licensed Apollo Dealer.

Whether you're after a deck for a highset home or want to create an elevated deck to suit a lowset home, Apollo has a decking option to suit you. You'll be amazed at the quality finish and value for money an Apollo deck represents.

Apollo Patios® Screen and Glass Enclosures provide another dimension in outdoor living by adding a complete home addition using partially or fully enclosed glass or screens. Glass or screening allows you to have more protection yet still gives you the versatility to open up to cool breezes and the feeling of being outdoors in summer, while providing full protection when the weather turns cooler.

If you're after a new sunroom, rumpus room or a parents retreat, glass or screening is an affordable way to create additional living space for your home.

Don't feel restricted with outdoor design, talk to one of our design consultants to find a glass or screen outdoor home addition that suits you.

Building a better lifestyle with Apollo

About Us

Apollo Patios® is a family owned business that has been successfully operating since 1995. Manufacturing facilities are located in Queensland, New South Wales, Victoria, Western Australia, North Queensland and Northern Territory.

Apollo Patio Roofing Australia is proud to be an Australian company and uses only 100% Australian manufactured and designed product, engineered to comply to exacting Australian building standards. As one of Australia's largest and most successful outdoor construction companies we know our success has been built upon the thousands of families around the country who have chosen to build an outdoor home addition with Apollo Patios®.

We know our continued success is our ongoing commitment to you, the customer.

Apollo Patios® Designs

- Exclusive Apollo Patios® Design Centre Program.
- Professional consultants design your outdoor home addition to suit your requirements.
- You'll see a 3D image of how your home addition will look.

Apollo Patios® Roof Sheeting

- Apollo Patios® offers 2 choices of roof sheeting.
- Apollo Patios® Unilink 2000 broadspan roof profile & Unilink 2000 MK II roll formed roof sheeting.
- Both forms of roof sheeting are manufactured from high quality Australian steel.
- The Unilink 2000 MK II roof sheeting is thicker than industry standards constructed from G550 Hi Tensile .48 gauge steel.
- Spans of up to 4.7 metres are possible with no unsightly rafters or battens.
- Both forms of roof sheeting are coated with the exclusive Apollo Patios® Durasheen paint coat finish.
- The top side is finished with a 55% gloss coating to reflect the solar rays.
- Provides superior light reflection while minimising heat transfer.
- The underside has an 80% high gloss finish that reflects more light into your home.
- Resilient to mould growth and that means easy maintenance for you.
