

Canning Vale resident awarded for Outstanding Contribution

Canning Vale local Furniture Removal Company owner, Nick D'Adamo has been announced as the award winner for *Outstanding Contribution*, at the National Furniture Removal Industry Awards held in at their annual conference on the Gold Coast. The Australian Furniture Removers Association (AFRA) proudly congratulates industry professionals who have directly contributed and influenced the industry for the better.

This AFRA Award is not always granted annually but is presented to individuals based on performance and dedication, which make them that much more significant.

"We are always proud to announce our winners because award winners truly deserve them. There is nothing more rewarding than being recognised for outstanding achievements in any industry, and the very act of recognising and announcing award winners is certainly rewarding for myself and AFRA" says AFRA Executive Director, Viv Hanley.

The *Outstanding Contribution Award* winner, Nick D'Adamo Managing Director of Keys Bros. Removals and Storage, has received one of the most prestigious awards of the industry because the award is not given every year but only when an outstanding recipient is found. Nick D'Adamo has been a Council Member, President, Vice President, State President and strong AFRA supporter since his first day on the job. Currently mentoring newcomers to the industry, his achievements have directly contributed to the health of the Furniture Removal Industry.

"After many years in the industry it was an honour to be recognised by my peers and our governing Association. I am currently involved in improving training and bringing young people into the industry, so hopefully winning this award will encourage more people to think about the future of our younger generations and the industry as a whole as we move forward", said Mr D'Adamo.

Each award requires recipients to achieve and maintain high standards in their field.

"The AFRA Awards sincerely congratulate this year's winners for their outstanding achievements which have made my job and this industry a success. What these awards stand for is not only individual achievement but the ongoing support which this industry is fortunate to have", explains Viv Hanley.
