

## KITCHEN RENOVATIONS MELBOURNE

When planning your kitchen renovation two things are considered important, design and functionality. Here at Your Choice Plumbers we understand the importance of both providing our clients with all possible options regarding plumbing and gas installations, making it easy for the home owners to be creative in designing dream kitchen layout.

If you wish to have an island bench with sink and dishwasher or planning for a bigger kitchen with multiple gas appliances for optimal functionality, we can help. When it comes to bathroom renovations, plumbing and gas fitting is what we do best, this is the reason why 100's of Melbournian's have chosen Your Choice Plumbers to be part of their kitchen renovation process. We guarantee our plumbers and gas fitters will follow the project from start to finish with the highest precision and the best advice you can get.

### This is how we operate:

1. Once you book an appointment, our plumber will come around to have a look at your kitchen renovation plans as well as existing plumbing and gas installation to make sure your kitchen renovation can turn up as you have planned. After the inspection we will give you a quotation based on plumbing fixtures and gas appliances you chose to install.
2. When your old kitchen is demolished we will come around and plumb all hot, cold, waste and gas pipework as per new design making sure everything is in the right place for the installation of your new kitchen joinery.
3. When your new kitchen is installed by cabinetmakers and the tiling completed we will proceed with installation of sinks, dishwashers, taps and gas appliances making sure your new kitchen turns out as planned.

Upon completion of your kitchen renovation you will receive a Certificate of Compliance for all insurance and warranties purposes backed up with our labour guarantee.

### These are some of the kitchen renovations we were part of:
